

SNDWAY®

Descriptions:

This SNDWAY laser distance meter telescope is specially designed to the measurement of distance, speed, height, angle.

7 optical lens, high accuracy $\pm 1m$, hand-held and easy to operate.

A effective assistant on marine terminal, electricity, counter terrorism/military, real estate, leisure/outdoor sports.

Features:

- 1. It is compact, lightweight and very easy to operate.*
- 2. The auto switch off, combined with low power consumption, ensure optimal battery life.*
- 3. High accuracy, short time Distance measurement and display power consumption.*
- 4. Adoption seven-fold optical lens for seconds to measure speed and clearer vision.*
- 5. Rotate the focus, the farther it becomes clearer, IP54 security.*

Specifications:

**Brand: SNDWAY*

**Model No: SW-1000A*

**Measurement range: 1000m*

**Magnification: 7X*

**Unit Selection: M, Y*

**Field of view:7°*

**Scan Distance Measure:Yes*

**Distance Measure Accuracy: ±1.0M*

**Speed Measure Accuracy: ±5kM/H*

**Height Measurement:Yes*

**Angle Range: ±90°*

**Dioptre Adjustable Range: 3°*

**Objective caliber:24mm.*

**Eyepiece caliber:16mm.*

**Exit pupil caliber:3.8mm.*

**Lens Coating:Fully Multi-Coated(FMC)*

**Battery:750mAh Li-ion*

**Battery Life:Charge-discharge 800 times*

**Battery working life:Single Measuring 30000 times after one time full charging*

**Water Resistant:IP54*

**Measure function:Distance,Speed,Height,Angle*

**Laser wave length:905nm*

**Dimensions:104 x 76.5 x 41mm*

**Weight:179g*

Package Information:

*Package size: 17.7 * 13.5 * 6.4cm / 7.0 * 5.3 * 2.5in*

Package weight: 326g / 11.57 oz

Package List:

1 x Laser Distance Meter Telescope

1 x Portable pouch

1 x Hanging rope

1 x USB Charge cable

1 x User Manual
